ICRDSTEM 2022

6th & 7th MAY

10 – 4 AM PM

ZOOM — JAIN (Deemed-to- be-University)

ABOUT US

JAIN (Deemed-to-be University), an intellectual destination that draws inspired students from more than 38 countries to India's Silicon Valley - Bengaluru, has been established with an aim to provide quality education and entrepreneurial development. Due to its comm-itment to learning, research, academia and entrepreneurial development, National Assessment and Accreditation Council (NAAC) has awarded 'A++' Grade to JAIN with a CGPA of 3.71 on a 4-point scale.

A culturally vibrant campus consisting of students from various states contributed to achieve this award which reinvigorates the culture and rich academic traditions of the University. Over the years, the University has made conscious and concerted efforts to build on its strengths and consolidate its achievements.

CONFERENCE DETAILS

The ICRDSTEM is an international conference will be held online, on 6th and 7th of May-2022. This is hosted by Uttunga-The Student Research Forum, Department of BCA, School of Computer Science and IT, Jain(Deemed-to-be University). The conference will be an excellent opportunity for researchers, delegates, and academics to share their expertise and knowledge of technology.

The ICRDSTEM on Science, Technology, Engineering, and Management aims to provide a forum for academics, business researchers, and practitioners to discuss cutting-edge developments in their fields.

At the conference, participants will have the opportunity to speak with industry experts about recent challenges in scientific research and related fields. Leading researchers will present their incredible research discoveries as well as the strategies they employ to improve their results. This international conference on multidisciplinary research and education is certain to generate a number of new ideas and experiences that participants, regardless of their background (experienced scientists, seasoned professionals, or young scholars in the early stages of their careers), will be able to derive and apply in some way to advance their careers. Those who wish to publicise their amazing research findings and other efforts will be able to present their papers and articles.

Participants will be able to polish their abilities and refine their ideas and approaches by interacting with their colleagues and counterparts. They will also be able to network with specialists and high-level attendees, as well as discuss ideas and research findings from previous and current conferences. Participants will be able to form new networks, meet new people, and learn about the most recent tools.

The ICRDSTEM, one of the most meticulous specialist conferences of its kind in the academic world, has been specifically designed to provide technological and additional assistance to intensify research and innovative enterprises, disseminate groundbreaking experimental results, and publish innovative magazines/papers.
