CHALLENGES OF WOMEN ENTREPRENEURS

Entrepreneurship was once considered a man's territory, but each year, more and more women set out on the journey to launch and lead their own companies. These business-savvy ladies inspire other women with dreams of founding start ups, but many female business owners face still face significant obstacles because of their gender.

BIGGEST CHALLENGES WOMEN ENTREPRENEURS FACE TODAY

- **Women entrepreneurs think they need to act like men** - Most female business owners who have attended networking events can relate to this scenario. When women entrepreneurs have to talk business with primarily male executives, it can be intimidating. To compensate and protect themselves, women often feel as though they need to adopt a stereotypically male attitude toward business.
- **Emotions and nurturing skills can affect women's businesses** - Though trying to act like a man does not guarantee success for a female entrepreneur, allowing her 'feminine' qualities to stand in the way of getting things done is not necessarily recommended, either. By nature, women are more emotional and nurturing, which can sometimes be a hindrance to running a business.

- **Women often lack the support of other female business leaders – Various female business leaders** felt insecure about being in the minority as women who excelled in math and science, and longed for more camaraderie and support from female peers in their fields.
- **Many women have to balance raising families with running their businesses** - Work-life balance is often a goal of entrepreneurs across the board, but mothers who start businesses have to simultaneously run their families and their companies.
- **Women entrepreneurs are afraid of failure** - According to ‘Global Entrepreneur Monitor’ the fear of failure is the top concern of women who launch start ups. Failure is a very real possibility in any business venture, but it should not be viewed as negative.

INDIVIDUALITY OF A SUCCESSFUL WOMEN ENTREPRENEUR

SHE HAS A POSITIVE ATTITUDE

There is no energy that can mimic what is released when a positive, high-stepping woman enters a room. A positive attitude is the fuel needed to drive us from idea conception to realization. A positive attitude takes conscious effort on your part. Arrest negative thoughts and replace them with positive ones. Listen to the things you are saying to yourself in your mind. Deliberately use words that focus on constructive, affirming truths about you.

SHE CAN OVERCOME OBSTACLES

Women who have struggled in their lives tend to have amazing inner strength. Use adversity to your advantage. At the end of a struggle, you are a better, more valuable person. Helen Keller said, “Character cannot be developed in ease and quiet. Only through experience of trial and suffering can the soul be strengthened, vision cleared, ambition inspired and success achieved”.

SHE IS STRONG-MINDED

Strong-minded does not mean that you are rude, conceited or destructive. On the contrary, a strong-minded woman displays confidence. When you are strong minded, you're empowered, possess a healthy self-image and take responsibility for your life. The entrepreneurial spirit, by its very nature, requires us to consider possibilities that most aren't brave enough to.

SHE IS SOFT-HEARTED

Charity and compassion allow us to reach beyond our cookie-cutter lives and make a difference in the lives of others. By reaching out to others, we grow as individuals. A woman with a compassionate heart has great influence.

SHE HAS INTEGRITY

You do not need to leave victims in your path to be victorious. Do not need to step on others to step to the next level. Integrity must be the very core of your character and always put honor before dollars and live by your convictions. As you gain respect and trust, your company will grow. People seek to do business with those they trust.

SHE HAS BALANCE IN HER LIFE

Our lives revolve around four major categories like family and friends, health, wealth and spirit. These areas must be balanced to lead a fulfilled life. Evaluate your balance continually. A balanced life allows you to think clearly with imagination and optimism.

SHE SETS GOALS

Goals are dreams with a plan for realization. Commit your short- and long-term goals to writing. Record how and when you will achieve them. Post your goals in plain sight and review them often. Record the reward when the goal is attained. Remember that you cannot hit a mark you cannot see, and continual success demands a plan.

SHE IS DRIVEN BY A CAUSE

Looking for the hole in the market is a strategic move in every entrepreneur's plan. Find the needs in your business ventures and pursue those causes with passion.

SHE IS A TEACHER

Great women teach. People want to know what you have that ignites that flame within. We can help mold the great women of tomorrow.

SHE'S FOCUSED ON THE NEXT STEP

The greatest point of resistance is just before breakthrough. We must have a stubborn resolve to see ourselves to the other side. When challenging circumstances seek to derail us, if we just take that next step, we will find that we have made it.

REMEDIAL MEASURES FOR WOMEN ENTREPRENEUR

Vocational Education: The first measure would be to provide education, particularly vocational and technical education to girls. The curriculum should be restructured to include accountancy, management, computer science, small scale industry, entrepreneurial development, etc.

Entrepreneurial Motivation at School Level: The girls at the school level should be inspired to adopt entrepreneurship. Generally, women dream to become job seekers rather than job makers. To motivate the women, a coordinated effort should be made among the educational institutions, government departments, and the business world.

Accessibility to Information: All possible access to information should be provided for women entrepreneurs. Government agencies, association of women entrepreneurs, NGO's and universities should assume responsibilities in this regard.

Separate Publication: Separate publication should be brought out and distributed to women entrepreneurs on subsidized rate in order to create awareness and encourage them to avail of the benefits offered to them. Media should be used to give maximum information for promoting the cause of women entrepreneurs.

Access to Technology: Access to technology is low for women entrepreneurs. Due to lack of finance and information they cannot have proper tools and equipments to improve the products.

Simple Formalities: Efforts should be made to simplify the procedures, formalities, rules and regulation etc. in matters regarding registration and getting assistance from different departments and government agencies.

100% Finance: Banks and financial institutions should offer 100% loans without collateral security to qualified technocrats. Similarly, term loans and working capital loans should be sanctioned liberally on different terms.

Training: The Government of India has organized a number of workshops on Trade Related Entrepreneurship Assistance & development for the benefit of women entrepreneurs. It seeks to empower women in rural & semi urban areas through development of entrepreneurial skill, elimination of various constraints faced by them & through strengthening trade support network.

CONCLUSION

Women entrepreneurs face several issues in various aspects of finance, marketing, health and family. After independence, law guaranteed equal rights and equal opportunities in education and employment for women. The Primary motivations to women to induce success as an entrepreneur not only in the form of financial assistance and government schemes, there ought to be psychological support from members of the family and husband. Although, government supporting in financial aspects, without having moral support from near and dears women may not get success as an entrepreneur. When it is a business, business is all regarding profits, losses and tensions. Someone should support in all times positively to avoid problems. This support will support a lot not only women and all. Now a days the aspirations of women entrepreneurs are increasing because their self-confidence, self-esteem, self-motivations are increased. The literacy rate is gradually increasing, becoming well aware of all things enhancements in knowledge levels will make women to have aspirations in future.
