Abstract: *The current study address to find out the scenario of Effect of time management in workplace. The papers explore the sectors for improvement of the existing and creation of new strategies, techniques and management systems in the light of the impact of working environment. Awareness about this Effect of time management in workplace in Mumbai district of Maharashtra. The principles are a set of underlying assumptions about how to view the organization and its relation to customers, competitors and suppliers. Effect of time management in workplace is based on some principles: Employees focus, sustainable performance and career growth. All organizations can have more or less systematic, integrated and proactive approaches to deal with the principles. Accordingly, a quality profile cannot simply be implemented based on the existing management structures and systems. It may require the redesign of work, the redefinition of managerial roles, the redesign of organizational structures, the learning of new skills by employees and the reorientation of organizational goals & Effect of time management in workplace.*

There are many places, which are unaware about Effect of time management in workplace hence the researcher feels to study on the awareness of Effect of time management in workplace in the District of Mumbai district of Maharashtra.

Introduction:

Effect of time management in workplace having factors those are interrelated.

1. There should be development processes with Employees focus, such as new development working environment.
2. Innovations in which the uses for career growth in either business functions or core processes of the organization.

These factors of development are mutually dependent, as an innovation in one type may lead to innovations in others. This co-dependency is created because Effect of time management in workplace processes are simultaneously before the study it is essential to know what are the aims and objectives of Effect of time management in workplace in India.

The main objectives of Effect of time management in workplace:

- a. To know the Effect of time management in workplace across the country in the country.
- b. To minimize the efforts and improving the career growth for organization.

- c. To replace a lot of other management process to reduce efforts of organization
- d. To comprehend with most of the quality management with technology.
- e. To study the Effect of time management in workplace of each area.

Result of study

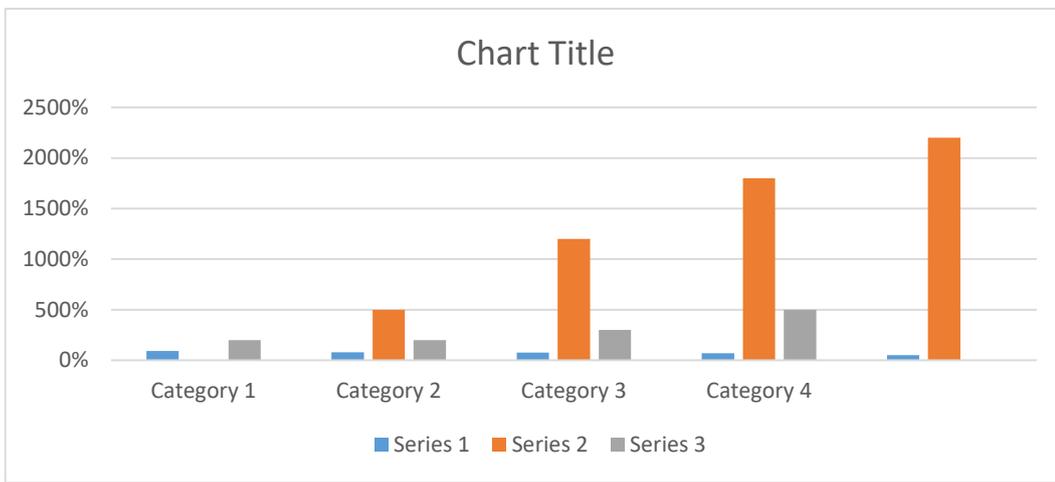

Data Collection Method:

- d. In Mumbai District in Maharashtra. There are total three zones. Out of which five sectors are selected for the current study. I.e. IT Sector, Banking sector, marketing sector, small enterprises. Total 50 people were selected as a sample size from these five places i.e. 10 from each.

Data of North Mumbai:

Sr. no.	Employees satisfaction	Effect of time management in workplace
01	90%	IT Sector
02	80%	Banking sector
03	75%	Medical sector
04	70%	Marketing sector
05	50%	Small enterprises

Table 1.1

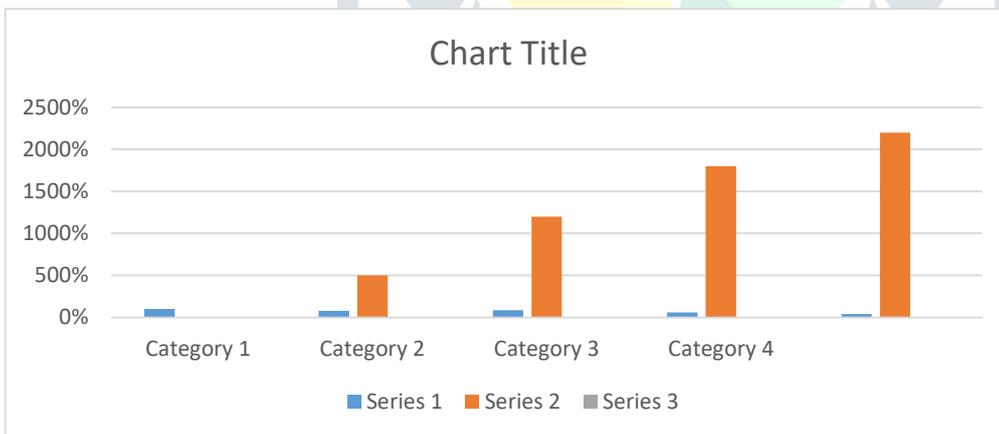

Graph 1.1

Data of Central Mumbai:

Sr. no.	Employees satisfaction	Effect of time management in workplace
01	100%	IT Sector
02	80%	Banking sector
03	85%	Medical sector
04	60%	Marketing sector
05	40%	Small enterprises

Table 1.2

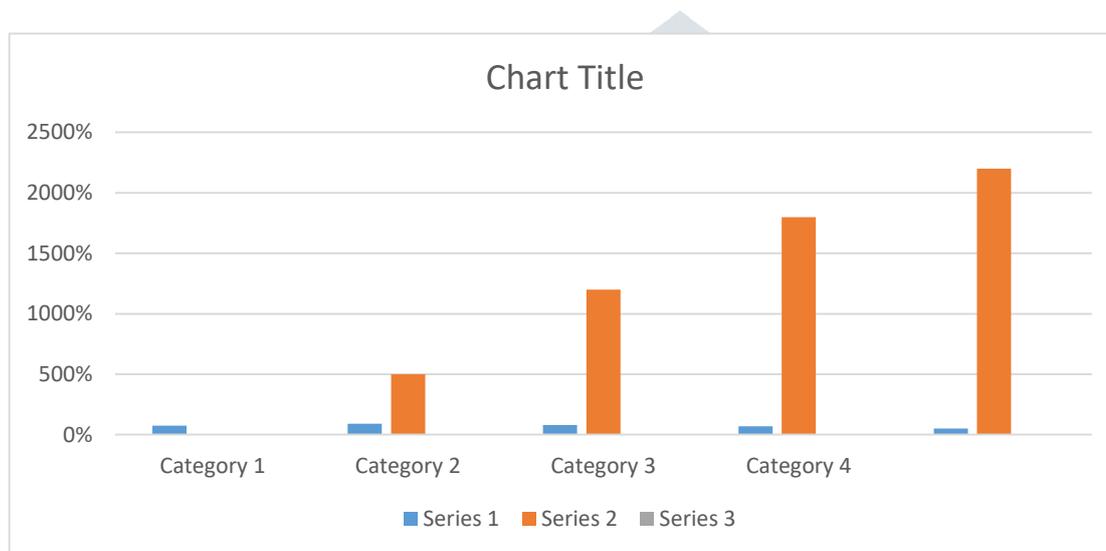

Graph 1.2

Data of South Mumbai

Sr. no.	Employees satisfaction	Effect of time management in workplace
01	75%	IT Sector
02	90%	Banking sector
03	80%	Medical sector
04	70%	Marketing sector
05	50%	Small enterprises

Table 1.3

Graph 1.3

- a. As shown in above tables and graph, most of the sectors are aware about Effect of time management in workplace in Mumbai. They know on which sector Effect of time management in workplace is applicable and on which product it not but they know it about used in everyday life. They are not much more aware about the about Effect of time management in workplace which are having high demand and fast innovative growth. They know only concept and few of them knows about it in details.

Conclusion:

Thus, there is always problem when new approach or new method is introduced in any sector. Even it is experienced that there is no one who can understand any strategies with fully desired expectation. Even not of those who are working in the professions, if such scenario is there for any technology, how one can expect that common people who are the users of system, which they adopt for their routine life, should understand Effect of time management in workplace at initial stage. Effect of time management in workplace to improvement will take time to understand. It is not as hard as to understand but to apply

organization quickly. There were different ratio of previous system which were divided as per location of users. Such complications are not in the application of Effect of time management in workplace .They will be aware about it when will start to use it by practically through. It needs only proper counseling.
