# **INTRODUCTION**

ICICI Bank Limited (Formerly known as INDUSTRIAL CREDIT AND INVESTMENT CORPORATION OF INDIA) is an Indian multinational banking and financial services company with its registered office in Vadodara, Gujarat and corporate office in Mumbai, Maharashtra .

It offers a wide range of banking products and financial services for corporate and retail customers through a variety of delivery channels and specialised subsidiaries in the areas of investment banking, life, non-life insurance, venture capital and asset management.

The bank has a network of 5,418 branches and 13,383 ATMs across India and has a presence in 17 countries. ICICI Bank is one of the Big Four banks of India. The bank has subsidiaries in the United Kingdom and Canada; branches in United States, Singapore, Bahrain, Hong Kong, Qatar, Oman, Dubai International Finance Centre, China[8] and South Africa; and representative offices in United Arab Emirates, Bangladesh, Malaysia and Indonesia. The company's UK subsidiary has alsoestablished branches in Belgium and Germany.

ICICI stands at 2<sup>nd</sup> RANK among the top private sector banks in India. And at 3<sup>rd</sup> RANK among the largest top 3 banks in India followed by HDFC at 1<sup>st</sup> and SBI at 2<sup>nd</sup>.

# HISTORY

ICICI Bank was established by the Industrial Credit and Investment Corporation of India (ICICI), an Indian financial institution, as a wholly owned subsidiary in 1994 inVadodara. Sir Arcot Ramasamy Mudaliar was elected as the first Chairman of ICICI Ltd. The parent company was formed in 1955 as a joint-venture of the World Bank, India's public-sector banks and public-sector insurance companies to provide project financing to Indian industry. The bank was founded as the Industrial Credit and Investment Corporation of India Bank, before it

#### © 2023 JETIR November 2023, Volume 10, Issue 11

changed its name to ICICIBank. The parent company was later merged with the bank.

ICICI Bank launched internet Banking operations in 1998. ICICI's shareholding in ICICI Bank was reduced to 46 percent, through a public offering of shares in India in 1998, followed by an equity offering in the form of American depositary receiptson the NYSE in 2000. ICICI Bank acquired the Bank of Madura Limited in an all-stock deal in 2001 and sold additional stakes to institutional investors during 2001–02.

In the 1990s, ICICI transformed its business from a development financial institution offering only project finance to a diversified financial services group, offering a wide variety of products and services, both directly and through a number of subsidiaries and affiliates like ICICI Bank. In 1999, ICICI become the first Indian company and the first bank or a financial institution from non-Japan Asia to be listed on the NYSE.

In October 2001, the Boards of Directors of ICICI and ICICI Bank approved the merger of ICICI and two of its wholly owned retail finance subsidiaries, ICICI Personal Financial Services Limited and ICICI Capital Services Limited, with ICICI Bank. The merger was approved by the Reserve Bank of India in April 2002.

In 2008, following the 2008 financial crisis, customers rushed to ICICI ATMs and branches in some locations due to rumours of an adverse financial position of ICICI Bank. The Reserve Bank of India issued a clarification on the financial strength of ICICI Bank to dispel the rumours.

In March 2020, the board of ICICI Bank Ltd. approved an investment of Rs 1,000 crore in Yes Bank Ltd. This investment resulted in ICICI Bank Limited holding in excess of a five percent shareholding in Yes Bank.

# FINDINGS OF THE STUDY:

Empirical Findings suggested that Banks ought to offer types of assistance to the clients by a few dispersion channels through on the web. They need to give safer and dependable administrations to the clients through mechanically arranged conveyance channels to expand bank development.

The study concluded that there are several roles. Electronic banking is helping consumers and service providers to do banking exchanges easily.

Mobile banking provides comfort 24\*7. Due to digital banking, loan fees is decreased and the market can see some creative items. Customers are using their cell phones to access their ledgers, send assets, and make payments at stores and company foundations through mobile banking, which plays a significant role in transforming the banking industry in India.

|      |           | transactions and               |                | data collected.             |
|      |           | Mobile transactions            |                |                             |

# FINDINGS OF THE STUDY:

The study result revealed that the digital transactions strongly correlated with Business per Employee of ICICI and SBI.

The bivariate correlation indicated that the NEFT, RTGS and Mobile Transactions are having the negative relationship with the Operating profitability of the ICICI bank and SBI.

# **RESEARCHMETHODOLOGY**

# SOURCES OF DATA COLLECTION

• PRIMARY DATA SOURCES- Information collected from respondents by the way of questionnaire

• SECONDARY DATA SOURCES- Information collected from various existing data sources like- websites, articles, newspapers and journals.

# **TECHNIQUE OF THE ANALYSIS**

Non-Probability sampling technique, as I have to take non-random responses and be more specific to the topic. Because the people who,

- Do not have a bank Account

- And the ones who hold Account in banks other than ICICI Will be useless for my study as it will indicate their unreal experience or attitude.

# PROPOSED STRUCTURE (DESIGN)

• EXPLORATORY- Study of various research papers and,

• DESCRIPTIVE- Primary data collected by the way of questionnaire
