

COMPARATIVE ANALYSIS OF MUTUAL FUNDS AND EQUITY SHARES

Jogini Sandhya Rani, Master of Business Administration,

MD. Sohail Baba, Assistant Professor, Department of Master of Business Administration,

Malla Reddy Engineering College and Management Sciences, Medchal, Telangana – 501401.

ABSTRACT

Savings form an important part of the economy of any nation. There are several ways to contribute to investments in the country, with more improved. Development Finance will also contribute to various funds. The international market is good or not, however, the contribution of the investment option for the average person.

Money saved in future costs for the rest of the spending. Instead of money, one may have to use the money for the future. The population was called.

You live for the purpose of money, resources, and money to ensure and can be expected in the future. It is important to make deposits because the price is for the price. It is the rate of increase in the cost of living prices.

To save the cost of shopping and healthy living is the only one required. Accounting, how long it would serve the same or not, as it can lead to loss of value. Before you start investing well. Invest in a capital increase to raise ideas, as well as interest or profit exchange contributions, and for a long time. To contribute to the three golden rules:

- Invest early
- Invest regularly
- Invest for long term and not short term

1. INTRODUCTION:

The purpose of this study, real estate investments is to determine wages and expenses. The clients and the service company gave way to measure the

number of clients. To obtain a decision on the conditions of the company was not a financial burden. More business decisions that reflect the conservative nature of life. During this difficult time, our clients want to be healthy is important, the way of living. Leaders must have a third party without customer knowledge. It is not only the government, and then for the development and improvement of customers, partners and employees must pay in full. The needs of our clients now and in the future of the project, the main objective of teaching.

Objectives of the Project:

- In India, I understand all the different possibilities.
- To receive information about various financial instruments to contribute to learning
- Self-funds or aggressive through the brokers want to see.
- Search type of client of different funds and financial institutions.
- The funds of the financial instruments in which?
- you have chosen to give money for investments.
- Who funds the reasons to ask?
- Found or contributed to risk.
- What with your investor clients.
- The company's capital market and the government shouldn't offer that to me.
- The first, and most important, the Board of Directors, and the organization that matters to me, as well as acting as the lead department will help me in the future.
- Decision making and resources to assess consumer attitude.

NEED OF THE STUDY:

Your capital has started to trade and it has played an important role. Debt capital from financial institutions or entities may be debt or bilateral. In the end, the owners of the companies were there for salary and legal interests.

You are now part of the company, much more. Expensive, otherwise they will spend the money. The world economy is what is called "justice".

Advantages of selling stock:

- Corporate debt on equity.
- The company has no interest in these loans for intellectual property.
- The company has no salary paid

The size/dimensions that this element has tried to play its role in getting capital from its traders are very important. the more weight you have, the more weight you have.

The role analysis in the capital market is not informative. It created because of a lack of information associated with market information: disks Unvalued (or overvalued). I, as someone who is valuable because they can be on the market, because of their complete absence and where they are, can be effective in a number of unproven activities.

SCOPE OF THE STUDY:

In India, according to this study, based on analysis, its shares, bonds and gold after the previous year, etc. they, for analysis.

LIMITATIONS OF THE STUDY

- This work in India, heavily from financial tools and tools for customer perception. Consequently, their knowledge of financial products provides the customer with the necessary information. Some of the difficulties at work were the following:

- The total number of financial instruments on the market, you must analyze all sources that are best. There are several companies that have a common financial instrument. Management and different types of analysis and in the country and it will take a lot of time and resources.
- The second project being implemented in the country, you can get free information so far.
- Give them this position for more information.
- Due to the time and cost of study areas specializing in Hyderabad and Secunderabad.
- Knowledge of financial instruments with a low customer base.
- Information can be listed through questions.

2. RESEARCH METHODOLOGY

Source of Data:-

- Primary Data : Questionnaire, visiting organization.
- Secondary Data: company information, bikes, newspapers, and magazines.
- Sample Size: 100.
- Sampling technique: Random sampling.

SAMPLING METHODOLOGY

Sampling Technique: first, ready to go with representative research projects. According to research conducted by the pilot to determine the accuracy of that application. , Saving the case was just some big change. The choice to approach but the customer I say from the land survey, justified. And life. with the care of proud people. This is the name preference for the convenience and accessibility of the scientific community. When choosing the best-looking themes and the best goals for address research are.

Sampling Unit:

For example, participants in the research unit. This is part of our national, national staff. Religare staff, self-employed and dedicated customers

Sample size:

Size testing was limited to 100 especially for areas that were not in Hyderabad as part of the lack of time.

Sampling Area: Hyderabad

The project work can only be complete after:

Analyzing the data.

I will collect and send the country to the Internet.

complete and detailed analysis in a short time.

Data Collection

Data collection is in two main ways for research and observations. This is also important in this study.

Importance of Questionnaire

When the requested information is collected by asking people who can collect the desired data, a standard form called a questionnaire is created with the help of the information needed for the research paper. The question is the name of the question to ask. Each question is organized accordingly, and the questions are listed in the order provided. Response record fields can be found in the questionnaire.

Presentation of the data

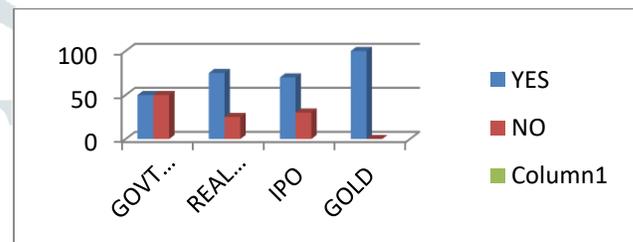

The background information will be analyzed and the analyzed data will be controlled by the type of images, charts, graphs, thumbs up and the website of the elderly. The given population will allow market share and population research. Unity is a constant for advertising.

G. period of Study:-45 Days

4. DATA ANALYSIS & INTERPRETATION

- Do you know about the following financial instruments?

	YES	NO	Column1
EQUITY SHARES	95	5	
MUTUAL FUNDS	90	10	
BONDS	60	40	
INSURANCE	95	5	
FIXED DEPOSIT	100	0	
GOVT SECU	50	50	
REAL ESTATE	75	25	
IPO	70	30	
GOLD	100	0	

100 people were interviewed for almost all the passion and type of contributions to gold deposits and almost 95 charges, as well as fund information.

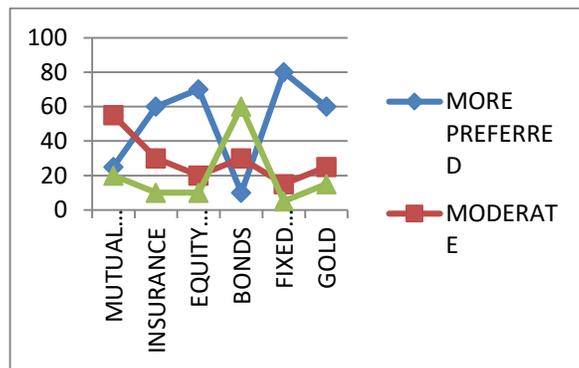

ot use this type of information in the following?

Among other things, 55 of the 100 readers who visited the magazine, television and the Internet, the sales manager and company information on friends and family.

Rate the following according to your preference?

	MORE PREFERRED	MODERATE	LESS PREFERRED
MUTUAL FUND	25	55	20
INSURANCE	60	30	10
EQUITY SHARES	70	20	10
BONDS	10	30	60
FIXED DEPOSIT	80	15	5
GOLD	60	25	15

40. is 20, a second, 41-45 years old Participation is at most 20% in the age group, at least in that age group 51-60 years.

Why you are investing?

	Response
RETURN	50
TAX SAVING	10
LIQUIDITY	30
REGULAR INCOME	10
SAFETY	50

Tax status of 50 people with only 10 people declared, stock or bond market, to falsify short and long-term monetary income 50 contributions to their participation in 10 people 30 people

Among the 100 participants, there is more than one financial instrument in strong market debt and debt, and more than 60 participants supporting the insurance premium.

What is your age?

Hyderabad, according to the plan, will be visited by 38-60% between the ages of 31-

5. FINDINGS OF THE STUDY

Findings:

Generally, dependent projects will be on past results. All my invention, and that in the table above.

After all the research and analysis, and stops, the releases and pressures on tax evasion, Capital services, etc., although the conclusion is that there is no original help available.

- In my opinion, it is at the age of 21-30 years that the high risk is that, as I can not be, it is the only important reason for the company to have more than one income and the best of 3-5 for years
- 100 participants, and almost all gold, are known as permanent opportunity generators and grow from around 95 equity and mutual funds.
- 100 participants, 55 of whom share information in television and internet

advertising, newspapers and communities, and family and friends.

- Hyderabad 60 investment, 38% of them between 31 and 40 years old. 20, the second age of 41-45 years, in the number of taxpayers, the participation of 20% and the age of 51-60.
- 50 due to the liquidity of the markets or investment chains, and 30 due to the elimination of accumulated taxes and the taxes of 10 people over a long period, the income of the products for the income of line 50-50.
- The detailed portfolio will be based on 5 and 35, 15, 15 contributions to the investment manager for investment in technical research will require 30 people
- mediator is the source of information is important. 5 members and 15 members of the mediator 20 investment managers and members of the media 100, 60, also a member of the investment bank director
- is the group, especially, from 58 1-3LAKHS income in a month, the second group, that is, monthly income 3-5LAKHS 22 depositors and investors, in another, at least 5 months, and household income are good.
- 10% with 50 contributors, 20% -20% and -30% 30, 30% -50% of the investment made by 10 people, 10 people are aware that the 10% contribution of human
- 30% until 32% of investment funds looking more dangerous, feeling trust 20% and 18%, believe he would be selective.
- 65 donations sure their short term as long as 1 year, funding for 3 years. Donations each "perfect" investment contribution of 3-5 years, this type of investment, at least 20 people donated less of 1 year ", in the short term," do not need to know the truth, only 15 people.
- 45% of the 20-30% of the market and the demand for investment 28 films volatility 20 %% investment is limited to 10% -15% in one day.

Suggestions and Recommendations

- The issue is the ignorant issue that is very important. Identify contributor's hero. Not until he is fully certified. The donation was fun, it is important to understand what cannot lose money.
- In most cases, select the investment vehicles are not to give an advantage. However, many people do not know what is absolute. Why are the path contributions? What contribution? Where the aid? They just cannot see the way to contribute. Because of this, we must change our thinking; It has been donated and had provided the goal. Investors, because of the lack of experience and time, apparently as a person in profile.
- They are suitable for Marta, Marta, and contribute to the economy, because, important investment private investment.
- Before investing, financial experts, you need to contribute/use needs of risk tolerance, and when (and, so, while I want to ask). What were the three things that will see the subscriber?
- Young people at the age of 35 years, almost larger This is the reason why close to the business of youth will become a group of subscribers, it's not enough.
- Contributions to mutual funds through donations directly to anyone who has the time to start. They said that the site was not only about the financing of investment.
- I have made all kinds of money or money for each patch. Avoid sector funds and NFOs

6. CONCLUSION

Now that you have some ideas, you can turn to the Returns arguments; we hope you are making money. The 20 investment options are as follows:

- A US Depository Receipt (ADR) is a share that is traded in the United States but shows the number of shares outside of foreign companies. ADR causes merchants to sell on the market as published and/or financed by a bank or correspondent in the United States.
- The annuity is the amount of cash that is still paid in cash over time. More bought it through an insurance company.
- Multi-fund is an investment fund that manages several shares in a portfolio. Shares are traded

- like shares, but due to the capital limit, this represents your common portfolio.
- What people can say about a home is that the value of its appraisal is reduced or demanded by most people over time. Many people assume that collecting things like stamps, money, art or games is fun, but there are indeed strict rules about what and how they are not collected.
 - Joint venture ownership is part of the company. This gives you the right to take advantage of the company and vote for market conditions.
 - Links are a downloadable link that can be transferred to a joint venture of a company. You can use dollar assets and contracts to change the number of shares in a particular company.
 - As a purchase from a commercial company, you have deducted your money from the company for the period allowed (known as travel). In most cases, the face value is USD 1,000. This is the face value of the bond and the lender will pay the tax immediately.
 - The future is tackled in billions, currencies, indices and contracts, and the market tries to predict the value of security in some future.
 - If you die, life insurance is protected against income. Someone named after your car receives the results from your auto insurance company to lose the proceeds of your death.
 - The money market is a type of debt that is over a year old and is very weak.
 - Post-Credit Security (MBS), also known as "credit through" or "Certificate Pass," is an investment instrument that represents the property rate and does not fall into the mortgage categories. The school principal and the morgue's self-interest are tax-based and used in the MBS.
 - Municipal bonds for short, are debt securities issued by a state, municipality or county to finance its capital expenditures.
 - The concentration of long-term debt, or "assembly" in your state, country or the financial capital of the utility is provided with the use of debt.
 - Economy someone a little money, for them, it is a useful contribution to the company's management. marketing and production prepare for the financial management and capital markets businesses.
 - Option sold to one party and the party and the approval of the sale (purchase) at a set time or in a certain period, the price of the security can be contained.
 - The candidates represent the company and were replaced by the company, are entitled to vote (this is not).
 - Population residential streets, not only on the purchase of land, property and business services and it is not possible to land (developed and developed), the capital, and many other features.
 - Population characteristics of the population exchange for large investments and mortgages or mortgages are sold directly.
 - There is a national network of Treasury debt. the fee and free and credit criteria, since it is or is not a threat.
 - temporary investments, purchases, and visits to believe that there are some of the revenue cap, ITU.
 - The scholarship examination acquires, or "broken record" has not been paid, seriously. "Get it in" or "Elements of the association carried out in the form of a broker or bank.
